

THE ALMA RECORD

VOL. XLII.—NO. 9

\$2.00 the year—5c the copy

ALMA, MICHIGAN, THURSDAY, MAY 27, 1920

TWELVE PAGES

WHOLE NUMBER 2149

HIGHWAY BONDS UNDERWRITTEN

Alma Banks Pledged To Support Sale of State Securities Here.

WANT ALL LOCAL WORK DONE

Work on State Roads Here Will Cost Approximately \$156,000.

The City of Alma will see that its portion of the state trunk line highways which pass through this city, are paved this year, local banks having underwritten the amount of bonds, which it is necessary to sell locally to have this work done.

Alma has nearly four miles of state trunk line highway that will be paved this year, as a result of the action which has been taken, and which Mayor Charles R. Murphy, has been working on for upwards of a week. This paving will be on West Superior street from the end of the present paving to the city limits, on Wright avenue from the end of the present paving north to the city limits. East Superior street from Euclid avenue to Bridge street and east from Republic avenue on East Superior to the city limits, and on Michigan avenue, east to the city limits.

This latter work, in conjunction with the plans of St. Louis people, will make a paved road the entire distance between St. Louis and Alma. The plans of the state highway department call for a pavement twenty feet wide, but it is the intention of the city officials to have the city add to this pavement making it thirty feet in width with curb. The additional ten feet of pavement will be paid for by the city.

The cost of the state work will be approximately \$156,000 for the nearly four miles of state highway paving. Yesterday Mayor Murphy sent the following telegram to the state officials regarding Alma's efforts:

"Alma, Mich., May 26, 1920.
"Hon. Frank T. Rogers,
"State Highway Commissioner,
"Lansing, Michigan.

"The City of Alma will put across her quota of bonds. Banks have agreed. Will use \$156,000, inside city limits and take care of west road later. Committee will call on in a few days."

The fine spirit, which has actuated the Alma business men, and particularly the two Alma banks in putting over this proposition is one that is worthy of the highest praise, and shows most clearly that the hustling community spirit for the betterment of Alma which was so prominent just before the war, is coming back with a vengeance, and that Alma will be up and doing things in the future.

In addition to this nearly four miles of paving on the state roads this year, the city is also to pave some other streets. Petitions have been filed for paving on Second avenue and on Woodward avenue, and it is almost certain that this work will be done.

As a result, it is very likely that Alma will see about four and one-half to five miles of paving within the city limits this year.

LEAVE ALMA

Professors Hamilton and Cornelius Leave Alma College.

Dr. D. W. Cornelius, head of the physics department of Alma college, and Professor Roy Hamilton, head of the department of public speaking, have resigned their positions at Alma College, the former to go to the University of Chattanooga, and the latter to Knox College, Galesburg, Ill.

Dr. Cornelius came to Alma college three years ago from the University of California, and during the time that he has been connected with Alma college, has displayed a marked ability in his work. During the time that he has been here, the physics department of the college has grown by leaps and bounds and has acquired a fine reputation, which went far as a recommendation to Dr. Cornelius to the officials of the southern university.

Dr. Roy Hamilton came to Alma just a year ago, and during this time has done much to build up the public speaking department of the college, which during the past few years had been somewhat weak. He is leaving it in a far stronger position than he found it, and will also leave many friends in Alma, gained during his short residence here.

SEND TEN MEN

High School To Be Represented At State High School Meet.

Alma High School will be represented at the Michigan Interscholastic Track and Field meet at Lansing Saturday with ten men, and supporters of the Orange and Black, are hopeful that the Alma cinderpath artists will bring home some points. The high school team has not had a chance to show its wares this year, having been unable to schedule meets with any of the nearby high schools, and as a result the team is in uncertain quality. The men have been working hard for some weeks, however, and should be in good shape for the state meet, and might furnish a surprise.

WONDERFUL RESULTS

Anti-Tuberculosis Work Yielding Fine Results.

That anti-tuberculosis and general health work really brings dividends in dollars and cents has just been demonstrated by one of America's greatest life insurance companies. This company, whose name is almost a household word and which insures about one in every five people in the United States, has recently made a statement of its health work the past decade and what has resulted from it.

The statement received by the Michigan Anti-tuberculosis association declares that from 1911 to 1919 the company saved 2,188 deaths for each one thousand policy holders exposed. This is a reduction of 17.9 per cent in eight years. In terms of lives, the reduction is equivalent to an annual saving of 27,500 policy holders exposed.

In dollars and cents this amounts practically to \$5,000,000 each year in death claims. One of the officials of the company, commenting on these figures, said: "So large a saving cannot be accidental, especially in view of the fact that during the period of 1911 to 1919 there was no saving whatever in the death rate of the general population."

But the general population can make the same saving, the Michigan Anti-tuberculosis association declares, as soon as it will adopt the same preventive measures employed by this far-sighted life-insurance company.

REPUBLICS DEFEATED THE COWPERS TWICE

Fast Detroit Aggregation Proved Easy For the Republics, Who Win Easily.

Alma's own, the Republic Trucks, continued their string of victories Saturday and Sunday, taking the Cowper All Stars of Detroit into camp in a two game series by scores of 5 to 2 and 6 to 0.

In the two battles the Detroit team secured just seven hits, six in the first game and one in the second. Thirty Detroiters struck out, fifteen in each game, showing how completely the Alma hurlers had the Cowpers in hand.

The Saturday game was somewhat of a pitcher's battle, with Sherlow of the Trucks opposing Tanner and Evers. Each team took six hits from the opposing pitchers, but the Republics managed to bunch their hits when they counted heavily. The game Sunday was a hurler's battle until the eighth, when the war clubs of the locals swung into action good and hard. Hagerman allowed the Cowpers just one safe blow.

On Saturday the Republics scored twice in the opening inning. Oakes walked. Tooley was safe on an error. Chouinard sacrificed them along, and both scored on Loney's single to left. In the third Tooley walked, took second on Loney's single to right. LaFleur and Desillets walked, forcing Tooley home. The final two runs came in the fourth inning, which saw Tanner sock the safety that was offered by the dugout. Sherlow singled. Oakes singled. Tooley smashed one to right, Sherlow scoring. Chouinard dropped one into left field, and Oakes counted. Loney struck out, and a double play on LaFleur's fly to short cut off further chances to score. A fine scoring opportunity was lost in the following inning by a double play.

In the third the visitors counted their first run. Loney threw wild to first and Tanner was safe. He took second on an infield out and scored on A. Dugary's single. The final run came in the eighth. Kerske opened (Continued on page eight)

PUSH SUCCEEDING

American Legion Post Gaining Many New Members Here.

The "Push" of the American Legion, is having a fine effect with the George W. Myers Post No. 132, to this city, many new members being secured in the campaign through the week.

At the beginning of the present year the George W. Myers Post No. 132, had only about one hundred members, and this has now been increased to about 250, and Commander Emerson Reese feels confident that when the push is brought to an end at the close of the present week that the membership of the post will have been increased to at least 300 members.

MEET HILLSDALE

The final game of the local Alma College baseball season will be played Friday afternoon with the Hillsdale College team on Davis field, and the local aggregation is hoping to be able to close its home season with a win over the Blue and White.

The Hillsdale team has won five games and lost two in the M. I. A. A. race, and is regarded as a strong aggregation, and should make the local collegians travel at top speed, the Maroon and Cream is to win. The Alma team, with the warmer weather coming on is expected to put up a better brand of ball, indications in the past two weeks pointing to the fact that the team is showing better stuff than at any time this season.

FUEL SITUATION IS VERY SERIOUS

Hope Entertained For Relief Within The Next Few Weeks.

HOLCOMB TELLS OF MEETING

Utilities of Michigan Have Only Very Few Days' Fuel Supply Now.

That the present highly serious fuel shortage can be eliminated by just two factors, increased production and better shipping facilities, is evidently the view of Manager Holcomb of the Central Michigan Light & Power company of this city, who was a member of the Michigan delegation which went to Washington, D. C., last week to bring the fuel shortage to the direct attention of the Interstate Commerce Commission, and ask that some stern measures be taken for speedy relief in Michigan.

The delegation, headed by William Smith of St. Johns, chairman of the Michigan Public Utilities Commission, met in Congressman Fordney's office in Washington early last Wednesday morning, and soon after was in session with the commission. The very serious condition in Michigan, and the need of prompt action in furnishing relief to the state, was pointed out by Chairman Smith. It was shown that many utilities companies in the state had been forced to close for a few days at a time during the recent months because of inability to secure fuel, and that many others had only a few days, or a very few weeks' supply of fuel on hand and that unless prompt measures were taken many utilities companies of Michigan would be forced to close down.

Remedies for the situation were talked over, the suspension of traffic regulations, and routing rules, two matters which the commission had been thinking over, were those which were given the most thought and deliberation at the meeting.

The following day the Interstate Commerce Commission made an order suspending these rules and also ordered the return of cars in the west to the east for fuel.

Manager Holcomb of the local company said this week that he hoped these measures would furnish the relief which the Michigan public utilities companies were seeking, but that it would be necessary for a production of about 11,000,000 tons of coal every month, if the needs were to be met and enough coal left with which to build up a surplus for the coming winter.

The coal strike of last fall, and the strike of the switchmen on the railroads this spring are believed to be the prime reasons for the highly serious condition of the fuel market.

TENNIS TOURNAMENT

College and Ypsi Split In Meet Held Here.

Saturday afternoon the preliminaries for the M. I. A. A. Tennis championship between Ypsilanti Normal and Alma College were played off at Alma. The men's contest was won by the local team, consisting of Glenn Richards and Bert Millett, two to one. The Ypsilanti team consisted of Kinney and Cooley. The first match went to Alma easily, by a score of six-love, six-love.

The first singles, played between Millett and Kinney was a hard fought match going to Ypsilanti by the scores of six-one, five-seven, two-six. The second match of the men's singles went to Alma by the scores of six-one, six-love. They were played between Richards for Alma, and Cooley of Ypsilanti.

The girls' matches were won by Ypsilanti. Ypsilanti brought a strong team to Alma but they were given a hard fight by our team, which consisted of Charlotte Hawes and Lois Pettibone. The first match, in the doubles was won by Ypsilanti, score 4-6, 1-6.

The first match of singles between Charlotte Hawes and Ethel Chatfield went to Ypsilanti by the scores of 2-6, 2-6.

The second match of singles also went to Ypsilanti by the scores of 4-6, 2-6. This team was composed of Lois Pettibone and Marion Baird.

Although the girls' team will not go to Albion to compete in the finals they will have several more tournaments this year. It should be remembered, further, that Ypsilanti has about a thousand girls in their school from which to choose teams, and should have better teams than the smaller colleges.

Thus by the results of this tournament Richards and Millett of Alma, and Kinney of Ypsilanti will play at Albion in the M. I. A. A. tennis finals. Both our teams have a match scheduled with Mt. Pleasant on Tuesday. On Saturday, next, both teams will also be entered in the state intercollegiate tournament at M. A. C.

Say Pan-Dandy when you call for bread.—64-19-c

NEW MACHINES

Regent Theatre Secures Latest Model Picture Machines.

Announcement has been made that the Regent theatre on East Superior street, has purchased two of the latest model motion picture machines, with a view of giving the patrons of this show house, the best results that can be secured.

The show house has also secured a new operator, thoroughly competent to take charge of the machines and give the best possible results, and the management feels certain that the projected pictures thrown on the screen will be more perfect in the future at the Regent than ever before, and that it will prove a source of high satisfaction to the patrons of the house.

CARNEY SUIT WILL

START NEXT WEEK

Former Health Officer and Others Being Sued For \$10,000 By A Girl.

The case of Nina McCall Rock, by her next friend, against Dr. Thomas J. Carney, Miss Ida Peck, and others, for \$10,000 will be tried in circuit court next week, it is now expected, and promises to be watched with interest over the entire state, being in the nature of a test case.

The case is the outgrowth of the anti-vice crusade, which was waged here during the war, when a special activity was waged here because of the soldiers which were constantly coming to Alma for trucks to be taken to the coast, overland, and then to France.

Because of this fact, Alma was considered as a military zone, in order that the anti-vice crusade, which the government was waging for the protection of the soldiers, might be better handled, and Dr. Thomas J. Carney, at that time health officer of the City of Alma, was given a federal appointment, to take charge of this work, the appointment coming to him from the government, through Dr. Olin of the state board of health.

During the time that this crusade was on, about two dozen girls and women here, were sent away for treatment for venereal disease, among these being Nina McCall Rock.

The case against Dr. Carney is an outgrowth of this campaign, and it is set forth that the girl was not diseased, and that she was misused, and that the powers of the health workers were exceeded.

The case promises to cover state laws, state board of health rulings and to bring in the government act, which had as its end the protection of the American soldiers from diseased women.

The case is an unusual one in Michigan, and is attracting wide attention, and it is more than possible that it will go to the supreme court for a decision, following the circuit court battle.

It is understood that the state board of health is standing back of the local doctor in the case, and it may prove a big factor in the court decision that will come when the case is brought to a close.

SALVATION ARMY

Home Service Fund Campaign Is Having Good Results Here.

The Home Service Fund Campaign in Alma, under the direction of Frank F. Smith, city chairman, which started in earnest yesterday in meeting with good results, in spite of the fact that Mr. Smith has had only a few days in which to secure his committees.

Few reports had been made to the chairman last night, as to the results of the first day's work. Reports that were in, however showed over \$800.00 pledged on the first day of the campaign, and it is believed that if all solicitors had reported the results of their work yesterday that close to \$1,000 would have been reported as pledged.

Chairman Smith feels confident that Alma will achieve the \$3,000 goal which has been set in the local Salvation Army drive, before the work comes to an end with the close of the present month, and both he and his committees are working hard to go over the top.

GOLDEN WEDDING

A pleasant time was enjoyed at the home of Mr. and Mrs. Chas. Plowman of Alma, May 18th, when twenty-four relatives and friends gathered for this occasion in honor of the latter's parents, Mr. and Mrs. L. D. Becker, it being their golden wedding anniversary. Mr. and Mrs. Becker have lived in the vicinity of Alma for the past thirty-five years. Their three children were present, Herman Becker of Lansing, Wilford Becker and Mrs. Chas. Plowman of Alma.

The table decorations were red and white carnations. The guests were entertained with music and a reading given by Miss Edwina Howard of Jackson. Relatives attending from a distance were Amos Becker, Joseph Becker and Miss Edwina Howard of Jackson, H. C. Becker and Mrs. E. E. Smith of Lansing, Mr. and Mrs. S. T. Richardson of Shepherd.

Deluxe candies are the best. 77-12

FORM CREDIT ASSOCIATION

Need of Organization Has Been Felt For Some Years Is View.

MEET AGAIN FRIDAY NIGHT

Constitution To Be Adopted And Permanent Officers Will Be Elected.

At a meeting of a number of business men of the community, held at the city hall Monday evening, preliminary arrangements looking to the formation of a Business Men's Credit Association, were started and it is expected that the completion of the organization will be finished at a meeting to be held Friday evening.

For some little time the need of a credit organization of this kind has been felt among the business men of the city, many of whom have suffered from lost accounts, made by who is known as the professional deadbeat, by people who move from the city and leave accounts behind them, and from accounts, in some instances, by people, who have been hit by hard luck.

The need of the organization is also felt as a means of speeding up the man who has acquired the reputation of being slow pay, the man, who is honest, apparently, but just naturally delays in paying his accounts just as long as possible.

Mr. Vogel of the Lansing Credit Men's Association was here Monday evening, and gave an address to the local business men on the proposition of a credit association, why such an organization was needed in Alma. He estimated that Alma merchants had nearly \$100,000 worth of bad accounts a year, and stated that three-fourths of them would be made collectible with such an organization.

The securing of information regarding people who desire to open accounts, was another reason that Mr. Vogel gave for such an organization. By the system which he outlined a good check could be secured on such people and their trustworthiness very soon made an open book to the merchant.

Following the address by Mr. Vogel a temporary organization was perfected by the selection of a committee, which is to draft a constitution and by-laws for the organization. The committee consists of D. W. Robinson, C. M. Johnson and Paul Crandell.

The committee has called another meeting to be held Friday evening at 8:00 o'clock, at which time it is expected that the permanent organization will be made and the constitution and by-laws adopted.

FROEBEL ENTERTAINS

Alma Girls Entertain Mt. Pleasant K-9 Students Friday.

All Tuesday afternoon the Alma Kindergarten girls were busy preparing for the entertainment of their Mt. Pleasant guests. Each girl was doing her best to return the hospitality which Mt. Pleasant had shown her.

Tuesday night a small delegation went to the train to meet the girls. Even the signs of an approaching storm could not dampen their enthusiasm. After a short wait the train pulled in, and the Mt. Pleasant girls, chaperoned by Miss Emmons, the head of the Kindergarten department, got off. They were taken to Wright Hall by their hostesses.

Dinner was served in the kindergarten room which was prettily decorated for the occasion with great bunches of wild cherry blossoms. The tables had runners of yellow crepe paper and the room was lighted with yellow candles. Before the guests sat down the Alma girls sang the college song. The dinner was well served by the girls in the department.

The program which followed was a long. Fromilda Young sang a number of songs in a charming manner and the sophomore girls gave an interesting dramatization of "Cinderella." After the program every one went up to the gymnasium and danced. The music was furnished by the Wright Hall orchestra, Miss Crosby and Miss LeVansler.

Wednesday morning, the girls visited the Alma kindergarten and also in the schools downtown. After lunch in Wright Hall every one went down to Mrs. King's gardens and enjoyed a walk through them.

ATTENTION M. W. OF A

You are requested to report at the I. O. O. F. hall the first Sunday in June, at 10:00 o'clock sharp from there to the M. E. church for M. W. of A. Memorial Service. Report to the Chief Forester.

NOTICE TO LOT OWNERS

Those owning lots in Riverside cemetery, who are expecting to have them given attention this year, are asked to remit \$1.50 at once to cover the cost of this work.

Cemetery Board.

MACHINE AT WORK

Sewer Construction Under Way With New Machine.

Alma's new sewer digging machine is at work, and indications are that the sewer that is to be constructed in Alma this year will be put in with great rapidity by this \$9,000 machine, which the city recently purchased.

The latter part of last week and the first of this week the machine was in use on Grafton avenue, and the sewer extensions on that street have been completed.

Tuesday morning at 9:00 o'clock the machine was started on the work that is to be done on Rockingham avenue, and at 5:00 o'clock in the afternoon 735 feet of sewer had been dug. City Manager Reynolds estimates that the cost of this work on Rockingham avenue, would have cost the city \$1.05 per foot or a total of \$771.75, indicating a remarkable saving by the use of this sewer digging machine.

This work on Tuesday was through soil that did not cave in, and permitted rapid work, and is an exceptional day. All of the work will not go as rapidly as this did, but there is certain to be a large saving with the machine, over hand labor.

When the work on Rockingham avenue is completed, which will be this week, the sewer digging machine will be moved a block west and will start the sewer extensions that are to be constructed on Allen avenue. From Allen the machine will be moved to Moyer avenue, and from there will be taken to the eastern part of the city, where some extensive work is to be done.

COLLEGE NINE VICTORIOUS

OVER ALBION AGGREGATION

Methodists Lose Their Home Game to Alma College Boys 4 to 2 Score.

This past week end the collegians both won and lost, taking Albion College into camp 3 to 2, but losing to Kalamazoo college Saturday on the Kalamazoo field by a score of 18 to 1, this being the worst defeat that Alma College aggregation has ever met on the diamond.

The Albion victory was highly pleasing to the Maroon and Cream, in view of the defeat at the hands of the Methodists last week by a 12 to 10 score, when Ike Field's gang of sluggers won the first baseball game that Albion had taken from Alma in five years. It was a sweet revenge on the team that is led by the former Alma coach, and will go as additional proof that it is but rarely that the Methodists can down the hard fighting Alma aggregations.

Crittenden and Hotchkiss indulged in a pitching duel, in which the hours were about even, except that "Critt" did not allow the Albionites to bunch hits to the extent that Alma did, and this told the story.

Alma played one of the best games in the field that it has shown this year. Three errors were made, but they were not costly ones.

Albion was the first to score, showing over the first run of the game in the fourth inning. In the sixth Alma showed around a run and knotted up the count. The game was put on ice in the seventh, when a bunch of bingles, gave the Maroon and Cream two more runs, which with the previous one, as after events proved, would have been enough. Just for good measure, however, a fourth run was shoved over the counting station in the eighth. This same inning saw Albion add her second and last run.

Williams, who has been doing some rather consistent work with the stick this year, was the hitting star of the game. (Continued on page eight)

GOES TO COLUMBIA

Mr. Frank Bittner, class of 1918,

has been granted a Teaching Assistantship in Chemistry at Columbia University for next year and will have from six to eight hours of teaching and the remainder of his time will be devoted to graduate work for an advanced degree in chemistry. Mr. Bittner has recently been given a Fellowship in Chemistry at Vanderbilt University, Nashville, Tenn., but he asked to be released from this position because he thinks that Columbia and the City of New York offer greater opportunities. After leaving college, Mr. Bittner secured a position as chemist with the Buick Automobile Co. at Flint and later was chemist with the Briscoe Motors Co. at Jackson. Last year he was a Fellow at Purdue University where he was one of the instructors in Quantitative Chemistry.

DEFEATED YPSI TUESDAY

The Alma College baseball team broke away for another victory Tuesday defeating the Ypsilanti Normal College aggregation on the Ypsi field by a score of 13 to 9. Crittenden started the game for the locals, and when a lead was taken, was relieved by Cash. In the eighth Cash was hit hard, and Crittenden was called in from the outfield to finish up the game, and stopped the threatened rally of the Teachers. The victory gives the Alma team the right to qualify in the field day elimination contests at Albion June 4 and 5, with Kalamazoo, Albion and Hillsdale colleges.

MEMORIAL DAY PROGRAM READY

Exercises To Be Held at Strand, at Cemetery and at River.

GLASGOW IS THE SPEAKER

Impressive Ceremonies Promised With American Legion Now Active.

Final arrangements for the Memorial Day program have been completed, and it has been decided to hold the principal exercises at the Strand theatre, which the management very kindly offered for the purpose. The exercises at the theatre will start promptly at 1:30 Monday afternoon.

The exercises at the Strand will be followed by the regular ritualistic exercises of the William A. Moyer G. A. R. post at Riverside cemetery, and from these exercises the parade will wind its way back to the river where the exercises in commemoration of the nation's sailor dead will take place.

The parade will be headed by the Alma Masonic band, and will include the American Legion, G. A. R., the Alma lodges, school children and others.

Following is the program at the Strand:

- Music—Masonic band.
- American Legion march into hall.
- American Legion Memorial Service.
- Song—Glee Club.
- Invocation—Chaplain J. A. Mulvey of the Legion Post.
- Song—Fourth and fifth grades of Washington school.
- Lincoln's Gettysburg Address.
- Song—Fourth and fifth grades.
- "The New Memorial Day"—Katherine Hagerman.
- Organ Selection—Prof. Gipe.
- Address—Hon. C. L. Glasgow.
- Benediction—Chaplain J. A. Mulvey.

Parade will form on Gratiot avenue immediately following the close of these exercises and will march down Superior street to State, and thence south to Riverside cemetery, where the ritualistic exercises of the G. A. R. will be carried out. These will be followed by a short address by Rev. Gelston. From the cemetery the parade will march back to river, where the Campfire girls will scatter flowers on the river in commemoration of the nation's sailor dead.

Dr. Maynard Pugh will act as marshal of the day.

HOME GARDEN

Food Shortage Facing Country This Coming Winter.

The scarcity of farm labor is almost certain to make a food shortage in this country next winter, and because of this fact the need of everyone doing their part in rounding out the food supply cannot be too strongly urged. As a result the following article, is published:

"Why plant a back yard garden and what to plant in it."

"Because famine faces us. Authentic surveys reveal a shortage of at least 15 per cent in farm production this summer. This means that our own individual consumption of food must be curtailed to meet the shortage."

"Because the law of supply and demand is inflexible in its operation, prices must be higher. To feed our families without greatly increased expenses, necessitates supplementing farm production. This can be done by individual effort in back yard production. If you don't help feed yourself, how can you expect other people to do it for you? If you don't help to lower prices by increasing the supply, why expect some one else to lower them? The time to plant is now. Directions for preparing the ground are easily obtainable. Ground preparation, quality of seed and subsequent cultivation are essential to success."

"If you know something about the requirements and culture of any vegetables, plant them."

"If possible arrange with other people for exchange of product, so that each may plant those vegetables for which his conditions of soil, sun, moisture, etc., are best suited and still be sure of variety."

"For summer use, plant peas, beans, tomatoes, carrots, beets, Swiss chard, corn and summer squash."

"Repeat plantings of peas five or six times a week or so apart; carrots and beets three or four times; in order to have young tender vegetables and greens throughout the summer. Can and dry for winter use, preferably at some reliable community canning center."

"Special emphasis should be laid on tuber planting for winter food supply. That is when the food shortage will become acute."

"Tubers: Potatoes, carrots, beets, turnips, parsnips, salsify and onions. These can be stored in sand in a cool place or buried in trenches."

"Greens: Hubbard squash and cabbage can be stored. Oyster plant (salsify) and parsnips can be left in ground."

(Continued on page five)
